ABSTRACT

IMPACT BRAND IMAGE, WORD OF MOUTH AND PRICE ON CHATIME'S PURCHASE DECISIONS IN SURAKARTA

Regina Rizky Anindya reginaranindya@gmail.com

The purpose of this research was to analyze and indicate the brand image's impact, word of mouth and price against decisions for chatime in surakarta. The population that's been the object in this study is an unknown number of chatime subscribers. The samples are taken from hundreds of views of chatime with sampling methods. Analytical techniques in this study consist of, testing instruments: validity tests and infallibility tests, classical assumption tests, multiple linear analysis for regression, t test, f test and r² test. Results of multiple linear regression show that word of mouth and price has a positive influence on chatime purchase decisions while the brand image has a negative impact on chatime purchasing decisions. The results of the t report showed that price had a significant impact on chatime's purchases while the brand image and the word of mouth were less significant in his decision to purchase chatime. F test results show that brand image, word of mouth and price simultaneously have a significant impact on chatime purchasing decisions. The adjusted r square has a 0.143 digit meaning a marketing mix and brand image variable can account for 14.3 percent of a consumer decree, while the rest of the 85.7% is defined by unstudied variables such as consumer motivation, prod quality, service and location.
